

Next Month's Poll Question

What other businesses are remanufacturers getting involved with to supplement their businesses?

Go online to vote: irecyclingtimes.com

Research

What do you primarily do with cartridges that can no longer be re-used?

1. I will repair the broken or worn cartridge casing so that it can be used again; **38%**
2. I will strip off as many components as possible for reuse, then dispose of what is left; **31%**
3. I will sell them to recycling companies who can break them down and turn them into other things; **23%**
4. I have no other choice but send them to the landfill. **8%**

DID YOU KNOW?

56% of people ages 45-54 print pages from the Internet for their archives, and only 33% of people ages 18-34 do the same.
