An Israeli hardware company has raised the \$400,000 needed to take their invention—the Zuta, a mobile robot printer that drops ink onto a page as it rolls over the top—to market early in 2015. Watch more: bit.ly/mini11004

FEATURES

18 New Business Opportunities for Rechargers

With ink jet as well as toner, our business has often been defined as creating marks on paper. Now, it needs to be looked at in a broader sense.

Recycling Times informs, educates, and nurtures the global printer consumables industry innovatively through an integrated broadcast, print, digital and social media strategy. As such, we honor and respect the intellectual property of all businesses and individuals. Consequently, we take a zero tolerance position to the manufacture, distribution and sale of patent infringing "cloned" and counterfeit printer cartridges and components. We continue to strive to avoid promoting such in our advertisements, articles and editorial content.
